I'm passionate about using design to uncover inner simplicity in a complex world.

2008 - Present

Puget Sound Partnership Designer

I couldn't turn down the opportunity to work at this newly created "start-up" state agency as both a new experience working in the government sector and as an opportunity to work for a good cause. The agency serves as the "backbone organization" to support efforts to restore and recover Puget Sound. I work on our online and communication materials. Most recently, I redesigned and rebuilt our website.

1993-1995

Petrick Design Designer

After college I moved to Chicago. While there I was employed at Petrick Design, one of the top boutique firms. I worked on a variety of marketing and branding projects under Robert Petricks' direction

1995-1998

Microsoft Art Lead, Contractor

I worked in the sports games division, first as a contractor building user interfaces and then as a Microsoft employee, directing the visuals and managing the art team for Microsoft Baseball.

2006-2007

Prepsportswear Art Director, Co-founder

The team from Local Mobile transitioned to this new startup. As at Local Mobile, I worked on our branding, website and company strategy.

2005-2006

Local Mobile Art Director, Co-founder

I worked on the branding, website and company strategy in this tech startup.

2000-2008

Bridgmandesign Creative Director, Founder

I always wanted to run my own design firm. With two employees and an intern, we did UX, branding, marketing, advertising for small to medium sized companies.

1999 - 2000

Infinite Stores Art Director, UX

I left Microsoft to explore the startup world. I worked on branding, marketing and UX for this company which built an e-commerce platform.
